The new generation of LED lighting

ALLIOLIGHT

Made in Germany

Why luminaires from icotek?

As a long-standing partner for the industry, icotek is known worldwide for innovative cable entry systems with the highest quality standards. With the acquisition of the luminaire manufacturer Alliolight (all-in-one-light, i.e. luminaires for all areas of application in industry), founded in 1990, we are now expanding our product portfolio around the illumination of enclosures, IT applications as well as machines of all kinds.

Over 30 years of experience in the field of luminaires and accessories as well as renowned customers from all over the world guarantee the highest quality – made in Germany.

ALLIOLiGHT lighting systems

Efficient LED lighting

for industry and automation

TUBE

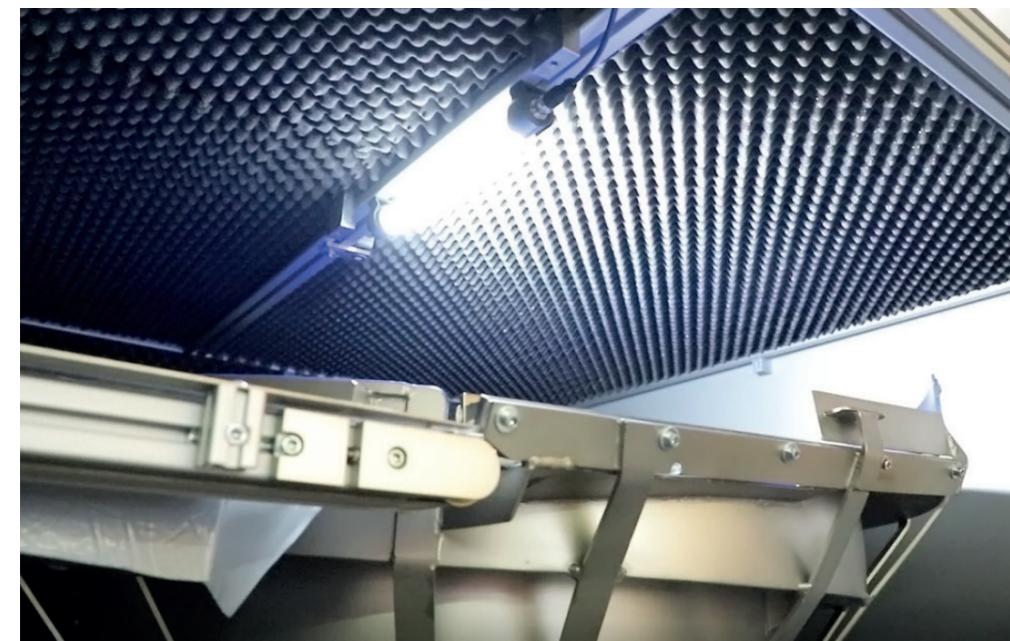

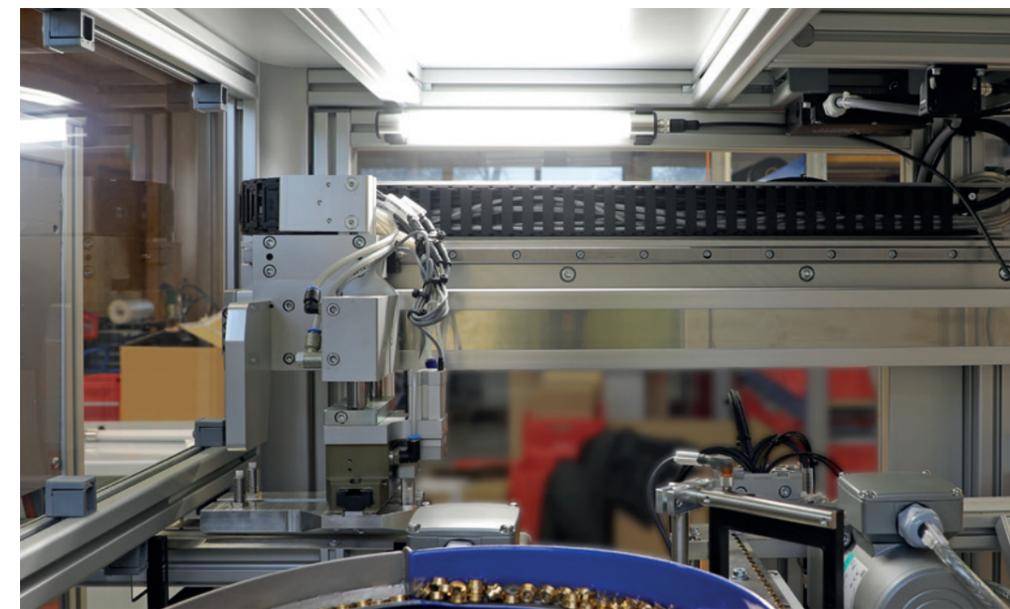

Robust machine luminaire
with the highest quality standards

Efficient LED lighting in machinery for industry and automation

The TUBE system luminaire provides effective lighting for machinery and equipment, with M12 connectors for standardised connection.

The luminaire is easy to mount, rotatable and offers a circuit-independent service life of 50,000 operating hours.

Depending on the application, you can choose different materials for the tubes: the TUBE is available in chemical-resistant borosilicate glass and in impact-resistant polycarbonate. Fluctuating temperatures, oil, water or various chemicals therefore affect neither the luminosity nor the service life.

Robust and almost indestructible –

smart cable management

Polycarbonate oder borosilikate glass –

impact resistant or chemical resistant

-  Chemical-resistant borosilicate glass or impact-resistant polycarbonate tube
-  Protection class IP67
-  Completely maintenance-free product
-  High energy efficiency thanks to LED chips
-  Compact round design \varnothing 28 mm, suitable for the tightest installation situations
-  Easy retrofitting in existing machines
-  Can be electrically linked (cascadable machine luminaires)
-  With rotatable LED tube
-  Stainless steel end caps
-  Cable connection via M12 connector
-  Nominal voltage 24 V DC

Specifications

Tube material	Borosilicate glass or polycarbonate
End caps material	Edelstahl
Mounting clips material	Polypropylene
Protection class	IP67
Protection category	III (Protective extra-low voltage)
Operating temperature	-20°C to +50°C
Tube diameter	24 mm
End caps diameter	28 mm
Service life of illuminant	50.000 hours
Light colour	Borosilicate glass: 5000 K, Polycarbonate: 5600 K

ALU-LINE

Innovative LED lighting for industry and IT applications

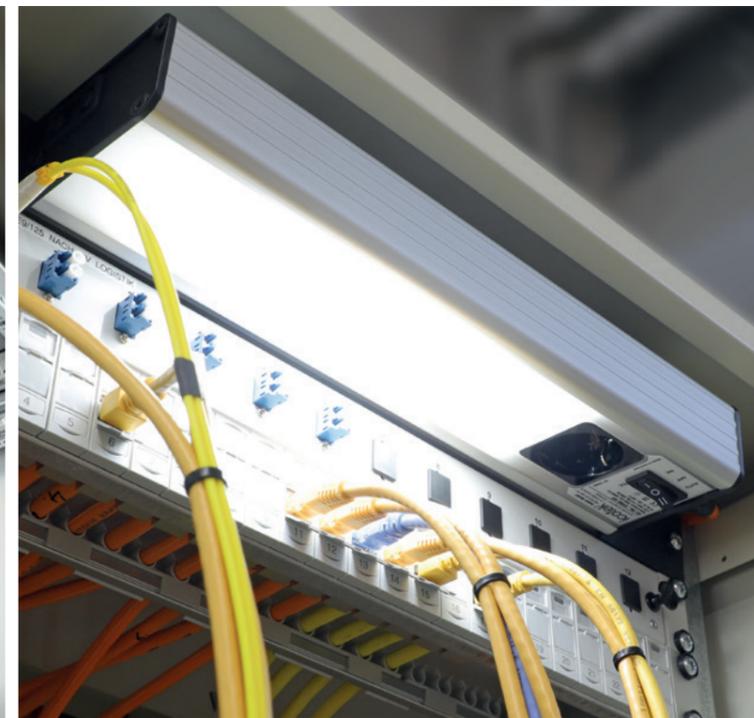

Glare-free LED lighting

in extremely robust aluminium housing

The ALU-LINE system luminaires provides effective lighting in enclosures for industrial and IT applications. Their aluminium housing makes them particularly high-quality and stable.

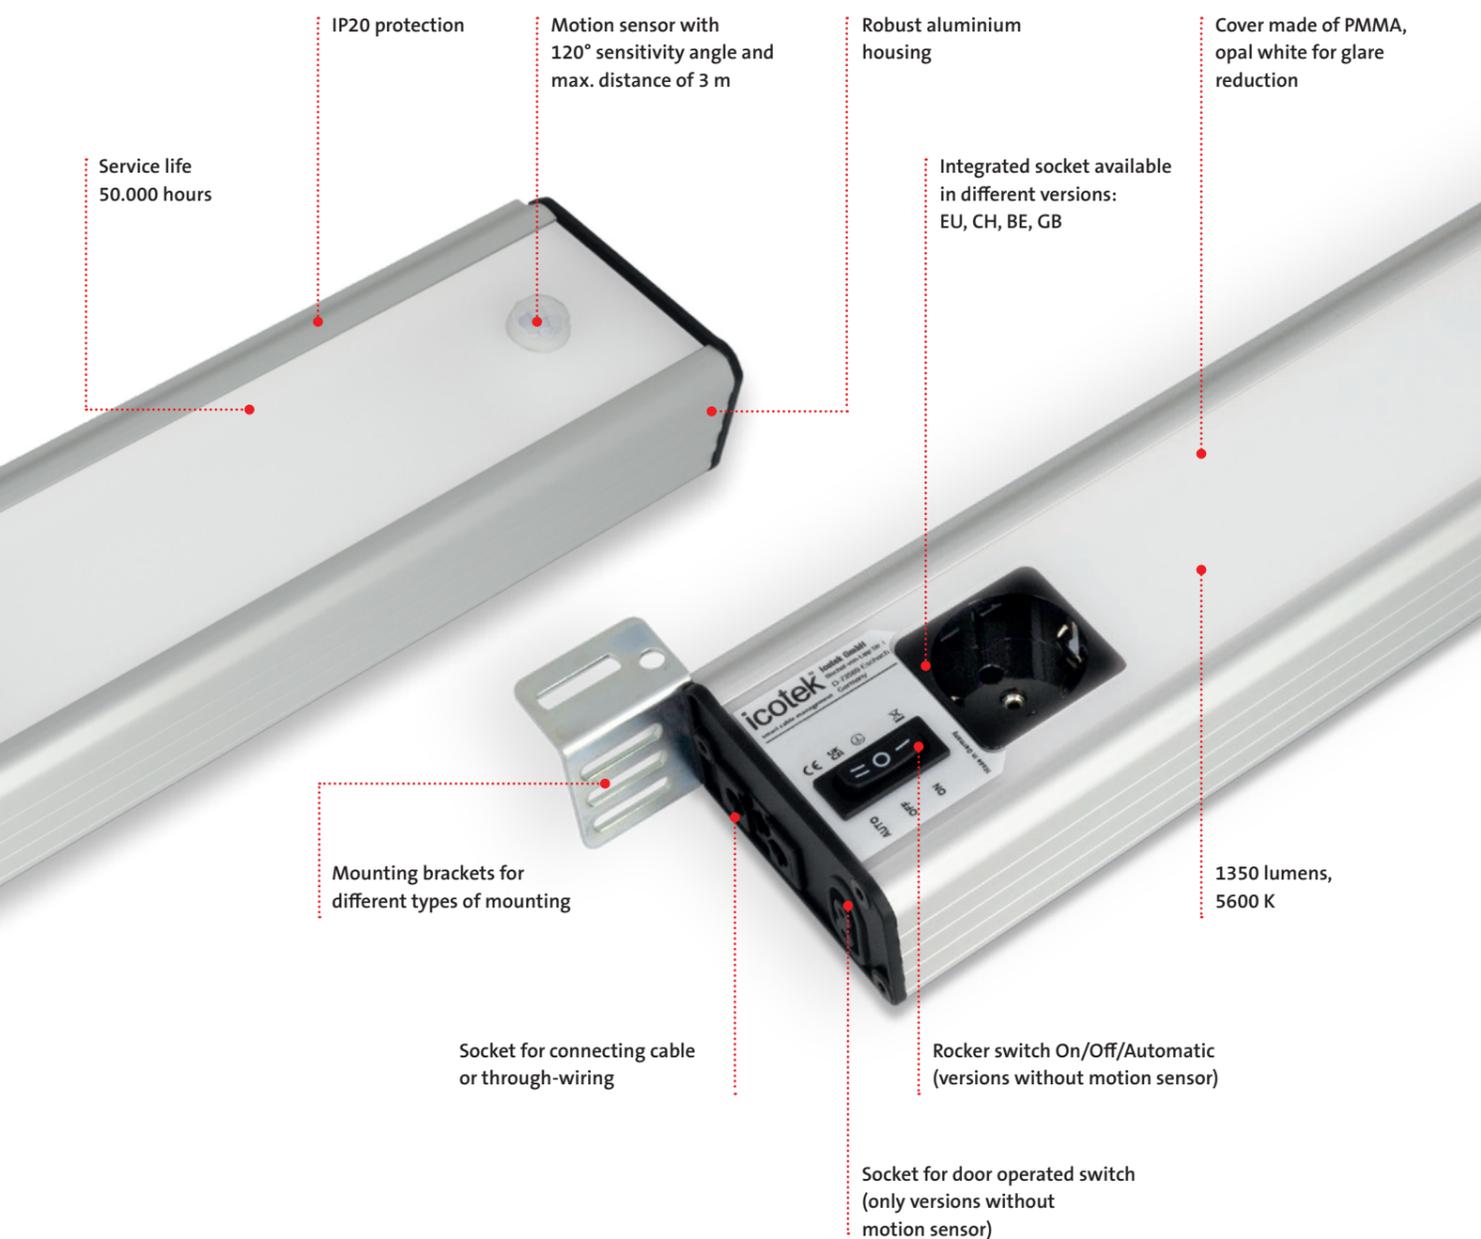

The ALU-LINE luminaire offers an integrated socket as a practical additional benefit. This is available in the EU, CH, BE or GB versions.

The High Power LED illuminates with 1350 lumens and provides a balanced homogeneous area light. Another advantage is that through-wiring of several luminaires is possible.

Automatic switching

with the motion sensor

- Integrated socket available in different versions: EU, CH, BE, GB
- High-quality and stable aluminium housing
- Various mounting types: screw assembly and assembly on top-hat rail 35 mm
- Effective LED lighting with 1350 lm
- Available with motion sensor
- Through-wiring of several luminaires possible

ALLIO

Compact LED lighting for industry and IT applications

Lighting in enclosures

for industry and IT applications

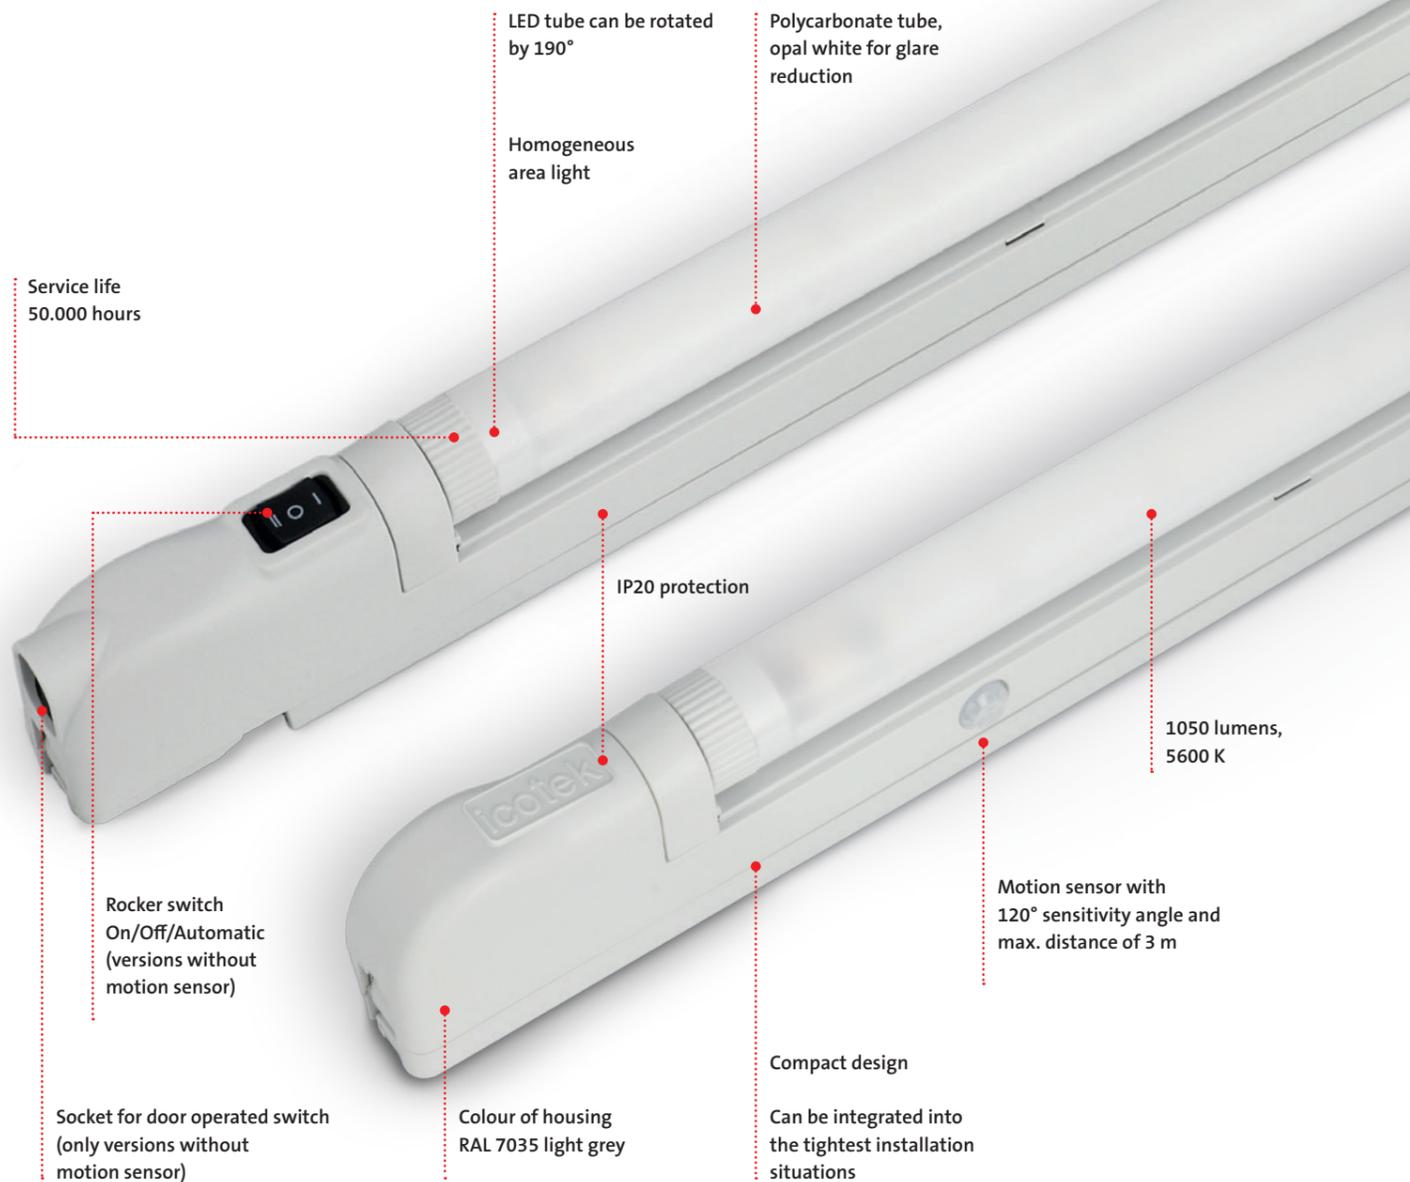

With its compact design and 190° rotatable tube, the ALLIO system luminaire offers space-saving lighting for enclosures. This also enables easy retrofitting in existing enclosures.

The High Power LED illuminates with 1050 lumens and offers a service life of 50,000 hours. The opal white polycarbonate tube provides a homogeneous, glare-free area light.

Compact design

for the use in confined spaces

Snap-in assembly in the 19" rack

Flexible, durable and bright –

ideal properties for the system luminaires

- Compact design with 190° rotatable LED tube
- Various mounting types: with magnets, screw assembly or snap-in assembly in the 19" server rack
- Easy retrofitting in existing enclosures
- Effective LED lighting with 1050 lumens
- Available with motion sensor
- Door operated switch available as an option
