

QT-DT

Membrane cable grommets ,
non-split,
for the QUICK system

The QT-DT membrane cable grommet enables the routing of cables without connectors. Using the QT-DT grommet considerably increases the cable packing density and decreases the space needed. This new grommet can be used in the KEL-QUICK cable entry frames as well as in the KEL-QTA cable entry plates. Therefore, it is possible to insert cables with and without connectors into one cable entry system.

Advantages & benefits

- Combination of pre-assembled and non-assembled cables in one cable entry product.
- Very high packing density
- Considerable space and cost savings
- Pre-assembly of individual assemblies possible
