

UT

Split cable grommet in U-shape

With the UT split cable grommet, cables with and without connectors can be easily and cost-effectively inserted into an enclosure and sealed with IP54. All that is required for installation is a U-shaped cut-out into which the fitted grommet is inserted. The UT can be used universally for cables (compressed air hoses, glass fibre tubes, etc.) with a diameter of 4 to 11 mm. The wall thickness of the housing can be from 1 to 4 mm.

Once the grommet has been fitted, it is inserted into the recommended cut-out. The housing cover is then placed on the lower part of the housing. Tightening the cover applies pressure to the grommet and seals and relieves the strain on the cable.

Advantages

- Only 6 grommet sizes cover a clamping range from 4 to 11 mm
- Cable diameter can vary by up to 2 mm
- Innovative wave cut for greater tightness
- For housing wall thickness from 1 – 4 mm
- Easy, tool-free installation
- Cost-effective solution

Specifications

Material	Elastomer
Colour	<div>■ grey (similar RAL 7035)</div> <div>■ black</div>
IP Protection	IP54 (certified acc. to EN 60529)
Flame class	UL 94 V-0, self-extinguishing
Temperature	-40°C to +100°C (static)
Properties	Silicone free, halogen free

Type	Cable diameter	Colour	Order No.	PU
UT 4-6	4 – 6 mm	■ grey	56001	10
UT 4-6	4 – 6 mm	■ black	56101	10
UT 5-7	5 – 7 mm	■ grey	56002	10
