Hook-and-loop cable ties

Cable ties with hook-and-loop fasteners are a more and more common fixing mode for cables. They are used instead of standard cable ties, because they can be easily closed and opened several times. The soft material is gentle on cables, especially where vibrations are present.

Hook-and-loop cable ties are available individually (KLKB) in four different sizes or as a continuous roll (KLB) in four different sizes.

Advantages & benefits

- Reusable
- Adaptable
- The cable tie material is gentle on cables, especially if there are vibrations
