

The new generation
of signal towers –
KombiSIGN 72
and **KombiSIGN 40**

Signal towers from **WERMA** reliably signal different conditions, and their use in industrial applications thereby ensures a greater level of safety and professionalism. We have accepted no compromises in the development of the **new generation** of modular signal towers. The light effects and tones must be able to be adapted in a **flexible** manner, and the installation must be **simple and intuitive**. In addition, the new modular signal towers are 100% future-orientated due to their networking capabilities whether as the **IO-Link version with KombiSIGN 40** or with **optional wireless modules (SmartMONITOR and AndonSPEED) for the KombiSIGN 72**. In this area, we ensure you are already optimally equipped for the future.

Armin Vogelsang, Head of Product Management

SmoothDESIGN

PREVENTS DIRT GATHERING
ON THE SURFACE

REACT FLEXIBLY TO THE
APPLICATION REQUIREMENTS
WITH THE **TwinLIGHT** AND
TwinFLASH AND THEREBY
REDUCE THE NUMBER
OF VARIANTS

SIMPLE AND INTUITIVE
INSTALLATION WITH
POKA YOKE

OmniVIEW
GUARANTEES THE BEST
VISIBILITY FROM ALL
POSITIONS

YOU NO LONGER NEED TO ACCEPT ANY COMPROMISES

Up to now you had to choose between:

- quick and easy installation or good visibility
- permanent or flashing light
- a high level of flexibility in light effects and signalling options or fewer part numbers
- very good performance or an attractive price
- good design or functionality

The new **KombiSIGN 72** means NO MORE compromises,
because we combine quick installation, top visibility and
outstanding flexibility.

FUTURE-ORIENTATED:
EASY NETWORKING
WITH THE MDC ALTERNATIVE
SmartMONITOR OR THE
AndonSPEED CALL
FOR ACTION SYSTEM

TwinLIGHT
TwinFLASH

KombiSIGN 72

Leading industrial and logistics companies rely on the **KombiSIGN 72**. Unlike conventional signalling devices, **KombiSIGN 72** combines the highest level of **flexibility** (modular, twin elements), the **best visibility** from all positions (OmniVIEW), and simple installation (Poka Yoke). The **KombiSIGN 72** has a **future-orientated design** that can be easily networked to an MDC alternative SmartMONITOR or to the AndonSPEED call for action system. **This saves time and money**, throughout the entire process from purchasing, and installation, to daily use.

KombiSIGN 72

Diameter	70 mm
Voltage	24 V
Protection rating	IP 65
Number of tiers possible	1-5
Optional interfaces	ASi, USB, SmartMONITOR, AndonSPEED

Your benefits

- SmoothDESIGN: smooth surfaces prevent dirt gathering
- Simple, intuitive installation (Poka Yoke – incorrect installation impossible)
- High-tech: the Signal Towers can easily be retrofitted with SmartMONITOR or AndonSPEED
- TwinLIGHT and TwinFLASH: two light effects in one element – halves the number of part numbers
- In ClassicLOOK or DesignLOOK to suit all machine housings
- Clearly visible from all positions thanks to the OmniVIEW lens with no blind spots
- Completely pre-assembled standard versions are available

TwinLIGHT
TwinFLASH

DesignLOOK

ClassicLOOK

KombiSIGN 40

There is no need to compromise with the **KombiSIGN 40**, because WERMA has combined **quick installation**, **excellent visibility** and **the highest level of flexibility** in this product. This saves time and money with regard to installation and order logistics.

KombiSIGN 40

Diameter	40 mm
Voltage	24 V
Protection rating	IP 66
Number of tiers possible	1-5
Optional interface	IO-Link

Your benefits

- Clearly visible from all positions thanks to the OmniVIEW lens with no blind spots
- TwinLIGHT and TwinFLASH combine two easily selectable light effects in one element
- Maximum flexibility despite a small number of variants
- Save up to 50% on installation time thanks to self-explanatory connections and intuitive mechanics
- In ClassicLOOK or DesignLOOK to suit all machine housings
- Completely pre-assembled standard versions are available (common configurations as a complete tower with a single part number)
- With an optional IO-Link interface

The new generation – KombiSIGN 72 and KombiSIGN 40

There is no need to compromise with the new **KombiSIGN 72** and the **KombiSIGN 40**, because we have combined quick installation, excellent visibility and the highest level of flexibility in these products. And at an unbelievably favourable price. This is what we at WERMA have defined as the new generation.

The new **KombiSIGN 72** and the **KombiSIGN 40** are

- SIMPLER
- MORE ECONOMICAL
- MORE VISIBLE
- BETTER
- BRIGHTER
- FUTURE-ORIENTATED
- MORE COST-EFFECTIVE
- MORE FLEXIBLE

WERMA: The ideal partner for your applications

KombiSIGN 40 for equipment manufacturing,
smaller machines, shipping and logistics

KombiSIGN 72 for machines, auto-
mated equipment, shipping and logistics
